

PURPLE UMBRELLA · CLIMATE & HERITAGE QUIZ — QUESTION BANK

FOUND IT Purple Umbrella Festival 2026 · 6–7 October 2026 · Dr. Ambedkar International Center, New Delhi · Theme: **AI & Climate Action**

Quiz track: **National Climate & Heritage Quiz Championship** · School teams · Classes 6–12 · Champion ₹50,000 · Runner-up ₹20,000

READ THIS Their official question bank is **not published anywhere** (format/rules are “shared through official participation guidelines”, registrations closed 25 Sept). So this is a **targeted bank built from the festival’s own stated themes** — climate, sustainability, SDGs, natural heritage, cultural heritage, and India’s places & traditions — plus everything current as of today. If a question comes from exactly these areas (it will), you’re covered.

HOW TO USE THIS TONIGHT (60–90 min plan)

- **First 30 min:** Parts 1, 3 and 8 (festival facts + summits + the numbers sheet) — these are the “hot” quiz areas and give the most marks per minute.
- **Next 30 min:** Parts 2, 4, 5 — science, India, heritage. Read answers aloud, don’t memorise word-for-word.
- **Last 20 min:** Part 9 self-test (cover answers), then skim Parts 6–7 and the tips box. Sleep — a fresh brain beats 2 extra hours.

PART 1 · THE FESTIVAL ITSELF (most likely “sitter” questions)

Interview-style and buzzer questions from organisers almost always include these.

1. What is the Purple Umbrella Festival? → India’s youth-led climate action festival founded by the **Purple Umbrella Foundation** — theatre, films, innovation, talks and quizzes for school students.
2. When and where is the 2026 edition? → **6–7 October 2026, Dr. Ambedkar International Center, New Delhi.**
3. What is the 2026 theme? → **AI & Climate Action** — connecting artificial intelligence with climate solutions.
4. Who founded the Purple Umbrella Foundation? → **Neeraj Mehta** (Festival Director 2026: Neeraj Kumar).
5. Where was the first (2025) edition held, and on what date? → **Bharat Mandapam, New Delhi, 9 November 2025**, with the theme “Creativity for Climate”.
6. Name the six experiences of the 2026 festival. → Theatre Championship · Short Films & Documentary · Innovation Championship · Climate Talks · Climate, Health & Well-being · **Climate & Heritage Quiz.**
7. What is the prize for the quiz champions? → **₹50,000** cash + championship trophy + certificates (Runner-up: ₹20,000 + trophy).
8. Who can take part? → **School teams of students in Classes 6–12**, from schools across India.
9. The festival’s stated aim? → To give children a **voice in the climate conversation** — “Climate Action for Students”; young minds, bold ideas, a better planet.
10. Which organisation partnered in 2025 as official hydration partner? → **Bisleri** (with its Greener Promise recycling stall).
11. What does the festival say the quiz builds? → Climate literacy, heritage awareness, critical thinking, teamwork, confidence — “connect knowledge, culture and climate”.
12. The venue is named after whom, and where is it? → **Dr. B. R. Ambedkar**, architect of the Indian Constitution — at **15, Janpath, New Delhi**, run under the Ministry of Social Justice & Empowerment.

PART 2 · CLIMATE SCIENCE — THE CORE (buzzer round favourites)

Definitions asked almost every year. One-line answers.

13. What is the greenhouse effect? → Trapping of the sun’s heat in the atmosphere by greenhouse gases, keeping Earth warm enough for life; too much of it = global warming.
14. Name the main greenhouse gases. → **CO₂, methane (CH₄), nitrous oxide (N₂O), water vapour** and fluorinated gases.
15. Which is the most abundant greenhouse gas by concentration? → Water vapour; among the ones we emit, **CO₂** matters most.
16. Current CO₂ concentration in the atmosphere? → About **423.9 ppm (2024 record)** — up from ~278 ppm in 1750 (+53%).
17. Which was the warmest year on record? → **2024** — the first year to breach 1.5°C above pre-industrial levels. 2025 was the **2nd or 3rd warmest** (1.44°C above 1850–1900).

- 18.** How many of the last years are the warmest in the 176-year record? → **2015–2025 — eleven straight years are the 11 warmest.**
- 19.** What is La Niña and El Niño? → Ocean-atmosphere patterns in the Pacific — **La Niña** cools surface temperatures slightly; **El Niño** warms them. 2025 began and ended with La Niña — and was still near-record hot.
- 20.** What is the 1.5°C target? → The Paris Agreement goal to keep global warming well below 2°C and ideally to **1.5°C** above pre-industrial levels.
- 21.** Difference between mitigation and adaptation? → **Mitigation** = reducing emissions (cause); **adaptation** = preparing for impacts (effect).
- 22.** What does “net zero” mean? → Removing as much greenhouse gas from the atmosphere as we emit — balance, not zero emissions.
- 23.** What is a carbon sink? Name two. → Anything that absorbs more carbon than it releases — **forests and oceans** (mangroves too).
- 24.** What is a carbon footprint? → The total greenhouse gases an individual, product or organisation emits — measured in tonnes of CO₂ equivalent.
- 25.** What is ocean acidification? → Oceans absorbing excess CO₂, becoming more acidic — harming coral reefs and shellfish.
- 26.** What is blue carbon? → Carbon stored by coastal ecosystems — **mangroves, seagrass and salt marshes.**
- 27.** Which gas depletes the ozone layer, and which treaty protects it? → CFCs; the **Montreal Protocol (1987)** — the Kigali Amendment also covers HFCs.
- 28.** What are the main renewable energy sources? → Solar, wind, hydro, biomass and geothermal (green hydrogen is the new one).
- 29.** What is ‘green hydrogen’? → Hydrogen produced by splitting water using renewable electricity — no CO₂ emitted.
- 30.** What is the SDG for climate action, and how many SDGs are there? → **SDG 13 (Climate Action)**; 17 SDGs, adopted in 2015 as the 2030 Agenda. SDG 14 = life below water, 15 = life on land.
- 31.** What is a climate refugee? → A person forced to leave home because of climate impacts — floods, drought, sea-level rise.
- 32.** What is ‘loss and damage’? → The climate finance idea that rich, high-emitting nations help poorer countries recover from climate disasters — operationalised via a fund agreed at COP27 (2022).
- 33.** What is the NDC? → **Nationally Determined Contribution** — each country’s own climate plan under the Paris Agreement, updated every 5 years.
- 34.** What is a wetland/‘Ramsar site’? → A wetland of international importance under the **Ramsar Convention, signed in Ramsar, Iran, 1971.**
- 35.** Which greenhouse gas is the biggest from Indian agriculture? → **Methane** — from paddy fields and livestock.

PART 3 · SUMMITS & WORLD NEWS TO TODAY

All verified as of October 2026 — this is exactly the zone where quizmasters set “current” questions.

- 36.** Where was COP30 held and when? → **Belém, Brazil, 10–21 November 2025** — the Amazon city; the outcome was called the **Belém Political Package** / “Global Mutirão”.
- 37.** What did COP30 deliver? → A call to **triple adaptation finance for developing countries**; the **Tropical Forest Forever Facility (TFFF)** pledges crossed \$6.7 billion; roadmaps to halt deforestation and to transition away from fossil fuels.
- 38.** Where is COP31, and the twist? → **Antalya, Türkiye, 9–20 November 2026.** In a first-of-its-kind arrangement, **Türkiye holds the COP Presidency** (Murat Kurum) while **Australia leads the negotiations** (Chris Bowen).
- 39.** Which country hosts COP32 in 2027? → **Ethiopia** — the first time the COP will meet in a Least Developed Country.
- 40.** What was agreed at COP29 (Baku, 2024)? → A new climate finance goal — at least **\$300 billion a year by 2035** for developing countries — and rules for carbon markets (Article 6).
- 41.** When was the Paris Agreement signed, and why is 2025 special? → Signed at **COP21 in Paris (2015)**; 2025 marked its **10th anniversary** (celebrated at the Belém Climate Summit).
- 42.** When was the Kyoto Protocol adopted? → **1997** — the first international treaty with binding emission targets for developed countries.
- 43.** When was the UNFCCC born? → At the **Rio Earth Summit, 1992** (the “Rio Convention”) — every COP is a meeting of its parties.

44. Who publishes the big climate-science assessment reports? → The **IPCC** — Intergovernmental Panel on Climate Change, set up in 1988 by WMO + UNEP.
45. Which UN body confirms the annual temperature records? → The **World Meteorological Organization (WMO)**, as part of the UN — its “State of the Global Climate” report.
46. What was 2024’s special climate record? → **Hottest year ever recorded** — and the first calendar year to be more than **1.5°C** above pre-industrial levels.
47. Which countries are the world’s largest CO₂ emitters? → **China, USA, India** (India is 3rd, though far lower per person than the top two).
48. What is the International Solar Alliance? → An alliance of sunshine countries launched by **India and France (2015)**, HQ in **Gurugram, Haryana**.
49. What is the CDRI? → **Coalition for Disaster Resilient Infrastructure** — an India-led global initiative (2019) for climate-resilient infrastructure.
50. What is Mission LiFE? → **Lifestyle for Environment** — India’s 2022 initiative urging mindful, climate-friendly consumer habits; showcased at COP27 and adopted globally.
51. What is the ‘Global Stocktake’? → The Paris Agreement’s five-yearly check of how the world is doing — first held in 2023, feeding into new NDCs.
52. What is a ‘sherpa’ / the ‘high-ambition coalition’ in climate talks? → Sherpas = country delegates who do pre-negotiation groundwork; HAC = group of countries pushing for the strongest emission cuts.
53. Which two recent COP hosts were oil/forest nations, often a quiz trick? → COP28 **Dubai, UAE** (2023) and COP30 **Belém, Brazil** (2025).
54. Name the UN secretary-general who has been the loudest voice on 1.5°C. → **António Guterres** — “Follow the science... The gap remains dangerously wide.”
55. What is the World Environment Day theme/date? → **5 June**, every year (hosted by UNEP).

PART 4 · INDIA’S CLIMATE ACTION (the “India round” is standard at Delhi quizzes)

Includes the March–April 2026 update to India’s climate targets — very fresh, very likely.

56. What is India’s net-zero year? → **2070** — announced by PM Modi at COP26, Glasgow (2021) as part of *Panchamrit*.
57. What were the five *Panchamrit* pledges? → Net zero 2070 · 500 GW non-fossil capacity by 2030 · 50% of energy from renewables by 2030 · cut 1 billion tonnes of emissions by 2030 · cut emissions intensity 45% by 2030.
58. What are India’s NEW (2035) targets? → NDC 2031–35 approved March 2026: **emissions intensity –47% by 2035** (vs 2005), **60% non-fossil power capacity**, and a **carbon sink of 3.5–4 billion tonnes CO₂e**.
59. Big milestone India crossed in 2025? → **50% of installed power capacity became non-fossil** — achieved June 2025, five years early. By Dec 2025: 513.73 GW total, ~52% non-fossil.
60. What is India’s 2030 non-fossil capacity target? → **500 GW** (the world’s largest renewable expansion programme).
61. What is the National Action Plan on Climate Change? → **NAPCC, 2008** — eight national missions, including Solar, Water, Green India, Sustainable Agriculture.
62. What is the Green Hydrogen Mission? → India’s 2023 mission to become a global hub for green hydrogen production and export.
63. What is MISHTI scheme? → **Mangrove Initiative for Shoreline Habitats & Tangible Incomes** — mangrove restoration along India’s coast (2023).
64. How many Ramsar sites does India have? → **About 100+ (100 in mid-2026; some lists already show 101)** — the most in Asia. The 100th was **Surha Tal / Jai Prakash Narayan Bird Sanctuary, Ballia (UP)**, on World Environment Day 2026. Tamil Nadu has the most (20).
65. India’s first two Ramsar sites (1981)? → **Chilika Lake (Odisha)** and **Keoladeo National Park (Rajasthan)**.
66. Which Indian wetlands are on the Montreux Record (threatened)? → **Keoladeo (Rajasthan)** and **Loktak (Manipur)**.
67. India’s tiger count and the project that protects it? → **3,682 tigers (2022 census — world’s largest); Project Tiger** launched 1973 (50 years in 2023).
68. Where were cheetahs reintroduced in India? → **Kuno National Park, Madhya Pradesh** — from Namibia in 2022 (Project Cheetah), after 70 years.

- 69.** What is the International Big Cat Alliance? → An India-launched (2023) alliance to protect the world's seven big cats — tiger, lion, leopard, snow leopard, cheetah, jaguar, puma.
- 70.** What share of India is under forest & tree cover? → About **25%** forest + tree cover (ISFR); India is one of the few countries with rising forest cover.
- 71.** Which country launched the 'Mission LiFE' idea and at which COP did it get global adoption? → India; launched 2022, widely adopted around COP27 (Egypt).
- 72.** What is the NCAP? → **National Clean Air Programme (2019)** — city action plans to cut particulate pollution.
- 73.** India's renewable-energy addition in 2025? → ~**48 GW** of new renewable capacity in one year (37.95 GW solar + 6.35 GW wind).
- 74.** Which country has the largest solar installed capacity? → **China**; India is among the top 3–4.
- 75.** Name India's climate 'fossil fuel' promise nuance. → India did not sign the "phase-out coal" wording at COP26 (got it changed from "phase out" to "phase down"), citing development needs and per-capita emissions.
- 76.** What is the 'Aravalli Green Wall'? → An India project (announced 2023) to restore a green buffer across the Aravalli range to stop desert advance — relevant to Delhi-NCR.
- 77.** What is 'Ek Ped Maa Ke Naam'? → A 2024 nationwide tree-plantation campaign — "one tree in the name of mother".

PART 5 · NATURAL HERITAGE & BIODIVERSITY OF INDIA

Matches the quiz's "natural heritage" half exactly.

- 78.** How many UNESCO World Heritage Sites does India have? → **45 (as of July 2026)** — 37 cultural, 7 natural, 1 mixed — 6th most in the world. Newest: **Ancient Buddhist Site, Sarnath** (2026, at the 48th session in Busan, South Korea).
- 79.** India's seven Natural World Heritage Sites? → Kaziranga, Manas, Sundarbans, Nanda Devi & Valley of Flowers, Western Ghats, Great Himalayan NP, Khangchendzonga NP.
- 80.** India's only Mixed (cultural + natural) World Heritage Site? → **Khangchendzonga National Park, Sikkim** (2016).
- 81.** Which World Heritage Site protects the world's largest mangrove forest? → **Sundarbans** (West Bengal, shared with Bangladesh) — India's "green shield" against cyclones, and home of the Royal Bengal Tiger.
- 82.** Which two Indian biodiversity hotspots are UNESCO-listed? → **Western Ghats** and parts of the **Eastern Himalaya (Khangchendzonga)**; India has 4 hotspots total (also Indo-Burma, Sundaland/Nicobar).
- 83.** Kaziranga's fame and its biggest climate risk? → The one-horned rhino (Assam); risk = **floods** — 80% of the park floods most years.
- 84.** Which national park is famous for lions? → **Gir (Gujarat)** — the only home of the Asiatic lion.
- 85.** Which national park is India's first (under Project Tiger)? → **Jim Corbett National Park, Uttarakhand** (est. 1936 as Hailey NP).
- 86.** Which Indian park is famous for snow leopards? → Hemis (Ladakh); Khangchendzonga and the Himalaya regions too. India's snow leopard population: ~**718** (SPA report, 2024) — world's first national estimate.
- 87.** Which is India's largest tiger reserve? → **Nagarjunsagar-Srisailem (Andhra Pradesh/Telangana)**.
- 88.** Which lake is India's largest inland saltwater lake (and a Ramsar site)? → **Sambhar Lake (Rajasthan)**; Chilika is the largest brackish-water lake.
- 89.** Which river flows through the Sundarbans and which island group is India's southernmost? → The **Ganga-Brahmaputra delta**; southernmost point = **Indira Point (Great Nicobar)**.
- 90.** Which Indian tree is the 'tree of life' for desert ecology and was saved by the Bishnois? → **Khejri (Prosopis cineraria)** — the 1730 Khejarli martyrdom by Amrita Devi & Bishnois is India's first recorded tree-protection movement.
- 91.** What are sacred groves called in different states? → **Orans (Rajasthan), Devarakadu (Karnataka), Kavu (Kerala), Sarna (Jharkhand)** — community-protected forests.
- 92.** Which bird migration flyway passes over India, and why does it matter for wetlands? → The **Central Asian Flyway** — India's wetlands are stopover/breeding grounds for lakhs of migratory birds (Siberian cranes at Keoladeo!).
- 93.** Name a Ramsar site in Delhi. → **Najafgarh Jheel-adjacent wetlands / Yamuna floodplains** are candidates; Delhi's notable bird wetland is Najafgarh drain area. (Haryana's Sultanpur is nearest full Ramsar site, in Gurugram district.)
- 94.** Which two rivers matter for Delhi's ecology and heritage? → The **Yamuna** (Hindu mythology — Yamunotri → Delhi → Agra → Prayagraj) and the (mostly dry) Najafgarh drain system.

95. What is the Great Indian Bustard's connection with climate and heritage? → A critically endangered bird of the Thar; threats include power lines — a symbol in India's renewable-vs-wildlife debates.
96. Why are mangroves called 'climate heroes'? → They store 3–5× more carbon per hectare than land forests (blue carbon), buffer storm surges/tsunamis, and support fisheries.
97. What is the 'Great Nicobar'/other project the quiz might link to sustainability? → The Great Nicobar development debate — balancing infrastructure with tribal & biodiversity protection (Shompen, Nicobar megapode).

PART 6 · CULTURAL HERITAGE × CLIMATE (their unique angle — expect at least one round)

"How heritage sites and traditions connect with a changing climate."

98. How does air pollution threaten the Taj Mahal? → Acid rain + suspended particles cause **marble yellowing** and '**marble cancer**'; hence the Taj Trapezium Zone restrictions and mud-pack cleaning.
99. What are stepwells, and which two famous ones are in India? → Ancient water-storage structures — **Rani ki Vav (Patan, Gujarat — UNESCO site)** and **Chand Baori (Abhaneri, Rajasthan)**. Climate lesson: rainwater harvesting.
100. Give two traditional Indian water-harvesting systems. → **Johads** (Rajasthan), **kuhls** (Himachal), **zabo** (Nagaland), **apatanis'** channels (Arunachal), temple tanks (TN).
101. Which Indian festival celebrates the monsoon/season cycle the most? → Many: **Teej & Hariyali** (monsoon), **Onam** (harvest, Kerala), **Bihu** (Assam), **Pongal/Makar Sankranti** (sun & harvest), **Chhath** (rivers & sun).
102. What was the Chipko Movement? → 1973, Uttarakhand — villagers (Gaura Devi, Sunderlal Bahuguna) hugged trees to stop felling; a global icon of forest protection.
103. What is Van Mahotsav? → India's tree-planting festival, started 1950, held in July (monsoon = best planting season — climate wisdom!).
104. Why are rock-cut caves like Ajanta & Ellora at climate risk? → Rainfall, humidity, and pollution cause **weathering, seepage and pigment loss** in the ancient murals.
105. Which UNESCO site is a 1000-year-old 'sun temple' and a climate-resilience icon? → **Konark Sun Temple (Odisha)** — aligned to the sun; or Modhera Sun Temple (Gujarat), India's first solar-powered heritage village.
106. What did the Kedarnath disaster (2013) teach about climate and heritage? → Extreme rainfall + glacial melt ("cloudburst") devastated a sacred site — showing Himalayan heritage is on the climate frontline.
107. Which heritage site is being 'reclaimed by the sea'? → Candid answers: coastal forts like **Sindhudurg (Maharashtra)**, and the Sundarbans islands — sea-level rise and erosion.
108. Why is Humayun's Tomb a climate-restoration success story? → The Aga Khan Trust's restoration revived its **garden-and-water system** (char-bagh), now a green lung of Delhi with solar/water recycling features.
109. What are 'climate-resilient crops' and why do heritage diets matter? → Millets (2023 was the International Year of Millets — India's proposal) need less water, suit traditional diets.
110. Which Indian city is a UNESCO 'World Heritage City' (climate-smart heritage)? → **Ahmedabad** (2017 — India's first), with its **pols, underground tanks (tankas) and heat action plan** (South Asia's first heat action plan, 2013).
111. What is 'cultural ecosystem services'? → Non-material benefits from nature — recreation, spiritual value, tourism, mental health.
112. Which Indian artisan traditions are tied to climate materials? → Bamboo & cane crafts, jute, khadi (all low-carbon, biodegradable) — cited in sustainable-fashion rounds.
113. Which wetland is famous for the 'Siberian Crane' and its conservation link to culture? → **Keoladeo National Park, Bharatpur** — the cranes stopped coming after 2002, a symbol of wetland loss.
114. Name an Indian heritage site rebuilt/repared after climate disaster? → Kedarnath temple precinct restoration (after 2013 floods); several Kerala temple towns after the 2018 floods.

PART 7 · DELHI SPECIAL (you're in the capital — a Delhi round is almost certain)

Mix of heritage + environment.

115. Delhi's three UNESCO World Heritage Sites? → **Qutub Minar (1993), Humayun's Tomb (1993) and the Red Fort (2007)**.
116. Delhi's (rare) natural feature — the rocky ridge — is part of which range? → The **Aravalli Hills** (Delhi Ridge — one of the world's few capital-city ridges, a biodiversity zone).

- 117.** Which river is Delhi’s lifeline and what pollutes it most? → The **Yamuna**; biggest source = untreated sewage + industrial effluent entering via drains.
- 118.** What is GRAP? → **Graded Response Action Plan** — Delhi-NCR’s emergency air-pollution steps (odd-even, construction bans) triggered by AQI levels.
- 119.** What is the Sunder Nursery? → A 90-acre restored 16th-century Mughal heritage garden next to Humayun’s Tomb — Delhi’s new green lung (UNESCO Asia-Pacific heritage award).
- 120.** Which Mughal emperor built the Red Fort, and why is it on the World Heritage List? → **Shah Jahan (1639–48)**; it represents the zenith of Mughal architecture + India’s Independence Day address venue.
- 121.** Delhi’s air pollution — the main winter cause? → **Stubble burning + temperature inversion + local traffic/dust emissions** — a classic climate-health link.
- 122.** What is Delhi’s Yamuna ‘floodplain’ role? → Natural flood buffer + groundwater recharge + bird habitat (Okhla sanctuary).

PART 8 · NUMBERS SHEET — TEN NUMBERS TO MEMORISE COLD

Number	What it is
1.5°C / 2°C	The Paris Agreement temperature goals (aspiration / limit)
423.9 ppm	CO ₂ concentration in 2024 — a record high (278 ppm in 1750)
1.44°C	2025’s temperature rise above 1850–1900 levels (2nd or 3rd warmest year)
2070	India’s net-zero target year
500 GW	India’s non-fossil power capacity target for 2030 (already ~52% of capacity by 2025!)
47% / 60%	India’s 2035 targets: emissions-intensity cut & non-fossil capacity share
~100+	India’s Ramsar sites (most in Asia; Tamil Nadu has the most — 20)
45	India’s UNESCO World Heritage Sites (37 cultural + 7 natural + 1 mixed; newest: Sarnath 2026)
3,682	India’s tiger population (2022) — world’s largest
6–7 Oct 2026	The festival’s dates — venue: Dr. Ambedkar International Center, New Delhi

PART 9 · 20-QUESTION SELF-TEST (cover the right side; 60 seconds per question max)

- Who founded the Purple Umbrella Foundation?
- Climate & Heritage Quiz is being held at which venue?
- Green do-good gases? Name three greenhouse gases.
- Warmest year on record?
- Where was COP30? COP31?
- What does NDC stand for?
- India’s net-zero year?
- How many Ramsar sites does India have (approx)?
- Which is India’s only mixed UNESCO site?
- Which movement hugged trees in 1973?
- Where were cheetahs reintroduced?
- Which city has India’s first heat action plan?
- What is blue carbon?
- Delhi’s three UNESCO sites?
- What is Mission LiFE?
- Which lake did Siberian cranes stop visiting?
- The 2026 festival theme?
- Who leads COP31 negotiations (country + person)?
- What fraction of India’s power capacity is non-fossil now?
- What is the Paris Agreement’s five-year check called?

ANSWERS

- Neeraj Mehta · 2. Dr. Ambedkar International Center, New Delhi · 3. Any of CO₂, CH₄, N₂O, water vapour, F-gases · 4. 2024 (2025 was 2nd/3rd) · 5. Belém (Brazil, Nov 2025) / Antalya (Türkiye, Nov 2026) · 6. Nationally Determined Contribution · 7. 2070 · 8. ~100+ (100 in mid-2026) · 9. Khangchendzonga National Park, Sikkim · 10. Chipko · 11. Kuno NP, Madhya Pradesh · 12. Ahmedabad (2013) · 13. Carbon stored in coastal ecosystems (mangroves, seagrass, salt marshes) · 14. Qutub Minar, Humayun’s Tomb, Red Fort · 15. India’s 2022 Lifestyle for Environment initiative · 16. Keoladeo, Bharatpur · 17. AI & Climate Action · 18. Australia / Chris Bowen · 19. About 52% (crossed 50% in June 2025) · 20. Global Stocktake

LAST-HOUR TIPS FOR TOMORROW

- **Buzz first, explain second.** In buzzer rounds say the answer confidently, then add one detail (e.g. “COP30 — Belém, Brazil”).
- **If you don’t know, reason aloud.** “Belém is in the Amazon, so COP30 = forest COP” sounds smart and earns partial credit/interview points.
- **Numbers round:** if unsure of an exact count, give the range technique — “India has around a hundred Ramsar sites — the most in Asia.”
- **Watch for “connection” questions** — their stated angle: how *heritage connects with a changing climate*. Season a Taj Mahal or Sundarbans example into any open question.
- **Team strategy:** divide sections before the quiz — one teammate owns facts/numbers, one owns heritage/monuments, one owns current affairs. You cover every list in this PDF fastest that way.
- **Carry:** school ID, registration confirmation, water, pen; reach the venue by 8:15 AM (INA/Janpath area — check metro: *Udyog Bhawan* / *Central Secretariat* are closest).

Prepared 5 October 2026 for the Purple Umbrella Festival 2026 Climate & Heritage Quiz · All festival facts sourced from purplefest.in; climate facts from WMO/UNFCCC/news as of today; India figures from the 2026 Union Cabinet NDC release + official trackers. This is an independent study aid — not an official question paper.
